- Uses standard 9" x 11 " folded tractor/pin feed paper
- Serial drive card included
- Prints in 80 column format @ 10 OPT
- 240 CPS print speed
- 9 pin serial dot matrix print head
- Quiet 57 db operation
- Full (1) year warranty

### Description

In situations requiring a printed hard copy of all system events and restorations in an 80 column format the **RPR-100** Remote Printer may be used. The RPR-100 printer should be located no more than 50 ft. max. wiring distance from the attached Fire Alarm Control Unit. In all cases this should leave the RPR-100 within the same physical space or room as the Control Unit. The RPR-100 is suitable for table top or shelf mounting and should be located in a secure area to discourage tampering or record theft. If remote printer operation is required during a primary power failure condition, the use of a separate UL listed interruptible Power Supply (UPS) source must be supplied to the unit. The RPR-100 remote printer is to be used as an ancillary event recording device only.

Model RPR-100
